

At the Fall 2016 Conference Assembly in separate business session both Eastern District Conference and Franconia Mennonite Conference will be discussing a proposal to explore if reconciliation between the two conferences is possible and if so, what needs to be done to accomplish this. As we prepare for discernment at assembly about whether or not to pursue the possibility of reconciliation we ask that you think about the following questions. These questions will guide our discussion time at assemble.

Please feel free to share and discuss these with your congregations as well.

Reconciliation Discernment Questions

1. If this process is affirmed, what is your desired *outcome* from the process? (What would you most want to see result at the end of the process?)
2. If this process is affirmed, what ideas would you have for ways that people could *speak into the process*?
3. What *affirmations, questions, or concerns* would you have about the proposal itself?
