

2018 report for Delaware Valley MEDA

The Delaware Valley MEDA board began this year with a Strategic Planning meeting in February led by Ken Byler. We spent 3 hours together doing some reflecting on our history, reviewing our mission and vision, and setting goals for the future of our organization. MEDA's vision is that all people may experience God's love and unleash their potential to earn a livelihood, provide for families, and enrich their communities. Our mission is to empower Christians to integrate their faith in the marketplace. We work to promote our vision and mission through Third Thursday breakfast meetings when a speaker shares their experience of the intersection of faith in the marketplace. We also host 2 evening events each year.

The MEDA convention is held each November. This year we are sponsoring a bus to convention from this area to encourage attendance. There is a group from our local area who are sponsoring MEDA interns. These are persons chosen by MEDA International to work on MEDA projects in a variety of countries around the world. For more information on MEDA's work, you can visit the website at www.MEDA.Org.

Lucy Brubaker, board chair
